LEVELS OF CARE

PARTIAL HOSPITALIZATION PROGRAM (PHP)

Our PHP includes intensive psychotherapeutic treatment and support in a less restrictive setting than inpatient care.

Clients can participate in a structured therapeutic program during the day while living at home and enjoying their community in the evenings. The goal is to establish a foundation for long-term recovery support. Our PHP is appropriate for those who may have one or more of the following symptoms: withdrawal from normal activities; behavioral problems; depression; anxiety; suffering from pervasive, psychiatric disorders; at risk of being a danger to themselves; or at risk of being violent toward others.

INTENSIVE OUTPATIENT PROGRAM (IOP)

Providing a higher level of support, our IOP is designed to help individuals who are experiencing an increase in distressing symptoms and behaviors or who aren't progressing in traditional outpatient services. The extra treatment and support foster meaningful improvement and create a solid foundation for clients before they transition to community treatment.

VIRTUAL INTENSIVE OUTPATIENT PROGRAM (V-IOP)

A convenient and COVID-safe treatment option that mirrors the experience and support of our in-person option and creates meaningful improvement with a solid foundation before transitioning back to traditional outpatient.

OUR PROGRAM

CUSTOMIZED TREATMENT

- Specifically curated psychotherapy groups meet weekly to ensure they address each client's needs.
- Treatment options include group-based therapy with individual psychotherapy, family sessions, and medication management as indicated by the treatment plans.

CLINICALLY EXCELLENT CARE

Licensed clinicians with certifications in evidence-based methods utilize a whole-person approach that includes the following therapies:

- Cinema Therapy
- Cognitive Behavioral Therapy (CBT)
- Dialectical Behavior Therapy (DBT)
- Expressive Art Therapy
- Movement Therapy
- Somatic Psychotherapies

COLLABORATIVE ENVIRONMENT

- Board-certified psychiatrists oversee treatment, conduct psychiatric evaluations, and offer medical consultations.
- Through privileged clinical partnerships, community providers continue to serve as an extension of each client's treatment team.
